PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science student skilled in **Python, Data Analysis, Web Development, and Data Structures & Algorithms**. Experienced in building AI-powered and web applications using **Flask, MySQL, HTML, CSS, JavaScript, Node.js, NumPy, and Pandas**. Solved **1500+** coding problems across competitive programming platforms.

Education

R.C. Patel Institute of Technology, Shirpur

2024 – 2028

Bachelor of Technology in Artificial Intelligence and Data Science

CGPA: 6.86/10.0

Maharana Pratap High School, Dhule

2023 – 2024

Higher Secondary Certificate, Science Stream

Percentage: 62%

Netaji Day School, Dhule

2022 – 2023

Secondary School Certificate

Percentage: 78%

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Data Science & AI:** NumPy, Pandas, Data Analysis, Machine Learning Fundamentals
- **Web Technologies:** HTML5, CSS3, Node.js, Express.js, RESTful APIs
- **Database Management:** MySQL
- **Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook

Projects

Smart Canteen Management System *Python, Flask, MySQL, HTML, CSS, JavaScript*

2025

- Developed a full-stack canteen management platform with OTP-based authentication and secure user account management.
- Implemented digital wallet features including balance management, transactions, and reward point tracking.
- Built an order management system with order history, automated bill generation, and email bill delivery.
- Designed an admin dashboard for monitoring users, orders, account balances, and overall system activity.

Multilingual Bot Assistant *Python, Flask, PyTorch, NLP, Sentence Transformers*

2025

- Built an AI-powered multilingual chatbot capable of understanding and responding in multiple languages.
- Integrated Natural Language Processing and semantic search techniques to improve response accuracy.
- Utilized Sentence Transformers and PyTorch for intelligent text representation and retrieval.
- Developed an interactive chat interface to provide a seamless and user-friendly conversational experience.

Smart Task Scheduler *Python, Flask, Algorithms, JavaScript*

2025

- Developed an intelligent scheduling application to optimize task selection and improve productivity.
- Applied Greedy and Dynamic Programming algorithms for efficient task prioritization and resource allocation.
- Created a responsive web interface for task management, schedule visualization, and performance tracking.
- Improved scheduling efficiency by generating optimized task plans based on user-defined constraints.

Achievements & Certifications

- Solved **1500+** Problems on CodeChef and LeetCode.
- Completed **The Ultimate Job Ready Data Science Course** – CodeWithHarry.
- Completed **Complete 2026 Python Bootcamp** – CodeWithHarry.
- Participated in the college-sponsored **Japanese Language Program (N5 Level)**.
